Use of Photography in School Policy

Introduction

Photography of pupils in schools is subject to the Data Protection Act 1998 regarding the rights of individuals to have information of a personal nature treated in an appropriate manner and the Human Rights Act 1998, protecting the privacy of individuals and families. As well as these statutory rights, restrictions on photography arise from issues of child protection and copyright on performances. The term photograph covers any form of visual imaging, whether on film or in digital format. 'In school' is whenever and wherever pupils are the responsibility of the school.

Aims

- To protect the right of parents to consent to their child/children being photographed for particular purposes at school.
- Emphasise the school's protective ethos towards pupils in respect of potential inappropriate use of visual images of children.
- Allow personal family photography where possible

Child Protection

Risk occurs when individual pupils can be identified by their names alongside photographs. Therefore we will only name the children in photographs that are displayed within classrooms. We will not provide names for any other purpose unless special parental consent has been received. Also the content of the photograph can be used or adapted for inappropriate use. Therefore only images of children in suitable dress will be taken. Photographs will not be taken of children when they are vulnerable - upset, hurt or in a state of undress.

Should the school learn about any inappropriateness of image use involving our pupils, we will immediately act and report it as we would for any other child protection issue.

Parental consent

All parents are asked to give their consent for photography of their child by completing a permission slip that is kept on file. A register is kept of children who must not be included in team photographs, videos of plays, record of class trips or any other photographic imagery moving or still. In such cases it may be necessary to withdraw the child from all or part of an activity in which he or she might be photographed. We would ask parents to consider very carefully the impact of such a decision on the child as we would not wish any pupil to feel that he or she was being punished as a result of parental concern.

All reasonable measures will be taken to ensure that no child on the register is photographed or videoed by a visitor to the school or while on an educational visit outside school.

Images for school publications

- The school will only take and use images that are appropriate and are considered to not be open to misuse.

- If an image of a child is used, the child's name **will not** be published. If a name is published, **no image will be used** without specific consent.
- Children and their parents/legal guardian will be made aware of why their picture is being taken and how it will be used.
- The school will ensure that images of a single child with no surrounding context of what they are learning or doing will be avoided.
- The school recognises that images must not be used to cause distress, upset or embarrassment.
- The school will use photographs that represent the diversity of the children participating.
- Images of children from the school will not be used to illustrate controversial subjects.

Security

- Photography contributing to the history of the school, its pupils, activities, or the community can be retained indefinitely.
- Photographs must be destroyed or deleted from databases once they are no longer required for the purpose for which they were taken e.g. a photograph for ID purposes should not be retained when replaced or expired.

Images taken by parents/legal guardians, family members at school events

Photography in schools traditionally forms an endearing part of each family's record of their child's progress and a celebration of success and achievement as well as being an established social practice.

Where practicable, arrangements should allow photographs to be taken by parents and other guests attending school sports, concerts and similar events. Photography must not though, be allowed to upset the performance or smooth running of the event or affect the health and safety of pupils and others. Photographs taken by parents and visitors should never be used on social media if there is another child in the shot.

We may:-

- Ask parents and others to refrain from photography at events where we appoint an official photographer and make arrangements to supply copies of pictures/DVD to parents. We will give notice of this in invitations to parents.
- Ask parents and others who wish to take photographs, where this is permitted, to do so from the rear of the audience, so that they do not impair the view of others. We will give notice of this in invitations to parents.
- Ask parents who wish to take photographs to sign a disclaimer beforehand that they will not use the photos on social media.

Images for the school website

School websites are part of the internet and are more easily accessible than paper based school publications. The school will make sure that only appropriate images are used.

Image filenames will avoid using children's names.

The storage of electronic images will be regularly reviewed by a senior member of staff.

Photographs of children are used anonymously on our website. Parents have a right to have any photo of their child removed from the website.

School Photographer

Parents should be made aware that, when class or group photographs are taken by a commercial agency, the photographer retains the copyright. Parents must be given contact details of the agency used.

CCTV

- The school uses CCTV in some areas of school property as a security measure.
- Cameras will only be used in appropriate areas and there will be clear signage indicating where it is in operation.
